Data Center Operation Post Configuration Review

APC Data Center Operation Post Configuration Review:

The EcoStruxure IT Onsite system training s designed for IT professionals who are new to EcoStruxure for Data Centers management software applications and desire core skills. Training will focus on administration and is structured around lab exercises, task- based activities, knowledge checks, and assisted discussions to ensure maximum skill transfer. Skills acquired will provide customers with the knowledge to assess complex physical infrastructure environments from anywhere on the network, aiding in short and long-term planning and provisioning of data center equipment and resources.
